

生鮮西瓜陪你清涼一夏

Watermelon Quenches Your Thirst

文圖 | 編輯部

炎炎夏日必吃的水果，腦海中一定會浮現西瓜的身影。西瓜果肉充滿水分，既消暑又解渴，而且從果皮內層、果肉到種籽都有營養、可食用，心動不如馬上行動，今天就帶一顆回家大快朵頤吧！

夏日同時也是颱風易來攪局的季節，引進的氣流常帶來大量降雨，為保障瓜農收益，行政院農業委員會協助產險公司推出西瓜保險，保單設計以降水量為承保事故，並以降雨最為劇烈的6月至9月作為保險期間，能有效降低天災衝擊與損失，讓農友安心種好瓜。

The first fruit that comes to mind on a torrid summer day is easily the watermelon. The pulp of the fruit is so watery and sweet that it can easily quench your thirst. All the flesh including the seeds is edible and nourishing.

In summer Taiwan is liable to typhoon attacks. The torrential rainfall

that often accompanies typhoons very easily causes considerable damage to the plants. To protect the interests of the watermelon growers, the Council of Agriculture has assisted them in taking out insurance policies covering damage to their watermelons from June to September.
